DETAILED ACTION

Allowable Subject Matter

1. Claims 9-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's invention claims a device for controlling a final power-output stage, the latter comprising three half-bridges consisting respectively of a series circuit including an upper semiconductor switch and a lower semiconductor switch and subjected to a service voltage, the connection points of the semiconductor switches of the half-bridges forming outputs which are connected to the windings of a motor having at least three phases. The invention is characterized in that there is provided a control device for shifting on-state respectively one semiconductor switch or simultaneously several semiconductor switches according to a predetermined program and for determining whether the respective voltages at the outputs are respectively within a predetermined tolerance range for the corresponding switching state. None of the cited art overcome claimed limitation of the instant application, since claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
